

PACC Rep – Laurie Lawrence

The Misty Oaks subdivision is located in the Southeast corner of Palm Aire, with two lakes and the 5th, 6th and 7th fairways of the Palm Aire Country Club's Lake Course forming most of the perimeter. Construction began on the first of what would be sixty four custom built homes around 1986, with the last one finished about 2002. With several different custom builders involved and the retention of many of the original large oak and pine trees each home and lot setting seems quite unique. While some of the original owners remain, the ownership is gradually shifting to older working families and new retirees, with most of the homes being modernized and updated soon after they change hands. We are a deed restricted community with an active HOA which assures that the high standards for the appearance of the homes and the neighborhood are continually maintained.
