

PACC Rep – Tom Schwartz

Rosewood at the Gardens is a small community of 39 stand-alone homes located just west of the Gardens Condominiums. The homes were built by a quality builder primarily between 1989 and 1991 and the current owners maintain the high standards of appearance of a country club community. The community has a centrally located swimming pool that is never crowded and the homeowners are frequently walking and visiting neighbors. You can see the pride of ownership when you venture through and feel the spirit of neighbors looking after each other.
